

Create login and configure WiFi

1. Download the Oakter app from App store/Play store and create your login
2. Click on 'Add device' and scan the QR code printed under the device

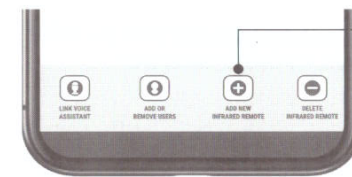

3. Plug in OakRemote to power

4. Follow instructions on the mobile app to configure WiFi

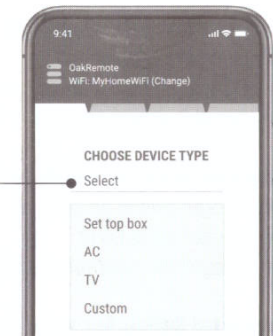

Creating a new remote in the Oakter Smart Home app

1. Click on 'Add New Remote'

2. Choose the remote type in the dropdown menu

3. Follow the instructions on the mobile app to add your IR remotes to control using Oakter Smart Home Mobile App.

4. Once the remote is setup, a LED will flash whenever an IR (remote) command is sent via OakRemote (Either through mobile app or voice assistant)
